

Easy Entry to www.liekki.com

The LIEKKI™ website is structured into the following sections:

Company, this section contains generic information about Liekki Corporation including our mission and values, organization, locations and career opportunities.

Technology, in this section we introduce our unique and proprietary Direct Nanoparticle Deposition (DND) technology, which allows to manufacture some of the industry's highest doped fibers, and a flat refractive index profile (RIP) reflecting accurate, lateral control of the core composition.

Products, this section presents information about our LIEKKI™ standard products, including product specifications.

News and events, in this section our periodic newsletter, publications (i.e. conference papers, articles, white papers and technical reports), awards as well as our event calendar and generic news about Liekki Corporation and our products are included.

Customer support, this section contains contact information for our sales & technical support as well as for our agents & distributors. Furthermore it includes forms to request quotes, purchase online and to contact us. In addition we also provide a product selector and our EasySplice software. The customer support section also includes our FAQs.

Special features on www.liekki.com:

Product specifications, specifications for our LIEKKI™ standard products are available on our website 24/7/365. The product specifications can be found easily in the product section, without any registration.

Product selector, a support tool which helps to find the optimal product for an application. The product selector chooses based on selected parameters, i.e. application wavelength, application type and power range, the suitable LIEKKI™ standard product for an application including complementary products. The product selector is located in the customer support section.

Request for quote feature allows to request a quote for our LIEKKI™ standard products within one single step using the request a quote form in the customer support section or browsing our products within the shopping cart.

Purchase online feature enables to purchase our LIEKKI™ standard products online using the purchase online form in the customer support section or the shopping cart when browsing our products. The online purchase process is based on a Secure Sockets Layer (SSL) protocol and guarantees secured communications and transactions.

The screenshot shows the LIEKKI website interface. At the top, there are 'Login' and 'Register' buttons. The main navigation bar includes 'Home', 'Company', 'Technology', 'Products' (highlighted with a red box), 'News and events', 'Customer support', and a search bar. The left sidebar contains a 'How to buy' section with four options: 'Request a quote', 'Purchase online', 'Product selector', and 'Customer support'. The 'Request a quote' and 'Purchase online' options are highlighted with a red box. Below this is a 'Shopping cart' section indicating 'You have 5 product(s) in your shopping cart.' The main content area displays the 'Shopping cart' with a table of items:

Product	Quantity	Delete
Yb1200-6/125DC	20 m	X
Er30-4/125	5 m	X
Passive-10/123	3 m	X
OE-Yb-L-30	1 unit(s)	X
LAD v3.3	1 license(s)	X

Below the table are buttons for 'Select more', 'Empty cart', 'Request a quote', and 'Purchase online'. At the bottom right, there is an 'Authorize.Net' logo with the text 'VERIFIED MERCHANT' and 'Credit Card Processing'.
